26.2 Movement between divisions/grades in finals

Movement within a Club's teams will be permitted as follows:

- (a) Any player that has played the majority of the matches/games they have played during the home and away season in a higher grade, shall be 'tied' to that higher grade for finals.

In the case where a player has played in more than two (2) grades i.e. in Division 1, 2 and 3, that player would only be tied to the highest grade if a majority of games were played in that grade (i.e. Division 1).

Example: a player plays 4 games in Division 1, 3 games in Division 2 and 2 games in Division 3 (9 games total), this player would be deemed as having played a majority of games in the 'lower' grades i.e. 4 games in Division 1 and 5 games below Division 1, thus not being tied to the higher grade. In this example the player would be eligible to play Division 1 & 2 grade, given a majority of games played (below Division 1), were played in Division 2.

In the case where a player has played the majority of games in the 2 lower grades, but where the number of games in the lower grades were equal (i.e. 4 in each grade) this player may then play in either grade as the player has not played a 'majority' in either one of those grades.

Note - This rule does not affect a junior's eligibility to participate in junior finals.

- (b) Byes, walkovers received (not walkovers given) and games cancelled due to unforeseen circumstances count as games played provided the player's name appears on a game report sheet, and that the player would have been available to play if a bye or walkover had not occurred. The player's name must be entered into ORS within prescribed timeframe, and the hardcopy game report sheet submitted to LV within the prescribed timeframe in order for this game to count.

Where a division or grade has a round designated as a 'Competition bye' these games do not count for finals qualifications and teams are not required to fill out a team sheet.

- (c) LV may require evidence to prove the player was available to play during a bye or walkover as set out in this Rule.

26.3 Player non-selection in Higher Grades

- (a) Where a club has two or more teams in finals;
 - I. a player qualifies under Rule 26.1; and is not selected in a higher grade, they are permitted to play in the Club's next lowest grade team below that for which they are tied, provided the Club has teams engaged in both grades in a Finals Round.
 - II. a maximum of two players per team may be qualified under this Rule in each Finals Round (this number shall not be cumulative).
 - III. a player who qualifies under this Rule is permitted to continue to play in that grade provided they do not play in a higher grade during the final's series.
